Considerations before you leave home

Appropriate swimwear

Swimsuits are required in the Bath House bathing area. The mineral-rich water may discolour swimwear.

Footwear required

To reduce the risk of slips and insect bites we recommend appropriate footwear around the pools and in wet areas.

Minimise valuables

Lockers are available but we recommend you minimise the valuables you bring on your visit and remove jewellery before entering the pools.

Accessibility

If you have any mobility needs, please *contact us* to plan your journey.

Bring a drink bottle

Plastic bottles of water are unavailable to purchase. Please bring your own reusable bottle with you to stay hydrated. We have filtered water onsite for refills.

Mobile phone

If you wish to bring your mobile phone, we ask that you only take images of your group.

Spa treatments

We recommend that you arrive at reception 15 minutes before your spa treatment time.

Prams and suitcases

Due to the layout of the Bath House bathing area, we ask that you leave your pram and suitcase in your car.

Medical information

Stay hydrated

It's very important to stay hydrated during your visit. We encourage you to take regular breaks and drink plenty of water while bathing, as spending extended periods in hot springs can lead to dehydration. We also recommend eating before and during your visit to help prevent dizziness or fainting. This is especially important for guests with diabetes, high blood pressure, or any recent medical conditions or treatments.

Medical advice

Please seek medical advice before bathing if you have any *medical conditions* or have recently been unwell or have suffered recent strains and sprains

Feeling unwell

If you are feeling at all unwell we kindly request that you reschedule your visit.
